**5<sup>th</sup> Floor Auditorium**  
**1515 Poydras Street**  
**New Orleans, LA 70112**

### EARLY REGISTRATION:

Member: **\$25**  
Guest: **\$35**  
Students: **\$5**

\*See [www.cmaagulfcoast.org](http://www.cmaagulfcoast.org) for details on Registration and Late Registration

### INCLUDES:

- Registration
- Lunch
- CEU's

### PROGRAM DESCRIPTION

Recent developments in Unmanned Aerial Systems (Drones) have seen booming growth in industries across the board. The implications and impacts of this emerging technology on the Construction Industry are impossible to ignore. It's important all responsible parties are aware of the capabilities, as well as limitations, of drone use on a construction site.

This meeting will provide you with an enhanced understanding of the industry standard products, software, capabilities, limitations and regulatory standards of drone use in the Construction Industry today.

### FEATURED SPEAKER

David A Eberly, CCM is an independent Building Consultant specializing in property damage insurance claims. He's a Certified Construction Manager, Licensed UAS Pilot, Licensed Property Adjuster, Certified Roofing Inspector, Certified Restoration Technician (Water, Fire and Smoke), and Registered Property Appraiser in Louisiana. Mr. Eberly spent most of his career in construction management on commercial and residential projects. He's represented sureties, owners, forensic engineering firms, contractors and insurance carriers on a wide range of construction and property damage claims. For more information about Mr. Eberly education, background and experience feel free to visit his LinkedIn site at <https://www.linkedin.com/in/deberlyllc/>.

Drones are an integral part of the services Mr. Eberly provides, but come with their own unique risks as well. Mr. Eberly uses Drones for the inspections of building exteriors as well a construction management tool throughout the United States and Caribbean. Please join us as he shares his knowledge and experience regarding this exciting new emerging technology.
